

## Meet Betty the Goldfish, your new Passpet.

This will appear on your toolbar:

This is **Betty the Goldfish**. When you need a password, click here to have Betty fill it in automatically for you.

Use this box to label the sites you use. The label will show when you are at the same site. Betty will make a password calculated from this label.

If you change the label, Betty will make a different password.

same label → same password

different label → different password

To use Passpet, you need a **master secret**. Would you like to choose a new master secret?

No, I already have one

Choose a new master secret
